Preface <i>Anders H. Gustafsson</i>	9
Acknowledgements	11
Glossary	13
1. Introduction <i>H. Volden and A.H. Gustafsson</i>	21
2. Overall model description <i>H. Volden</i>	23
3. Animal input characteristics. <i>M. Åkerlind, N.I. Nielsen and H. Volden</i>	27
4. Feed fraction characteristics <i>H. Volden</i>	33
5. Feed analyses and digestion methods <i>M. Åkerlind, M. Weisbjerg, T. Eriksson, R. Tøgersen, P. Udén, B.L. Ólafsson, O.M. Harstad and H. Volden</i>	41
6. Feed calculations in NorFor <i>H. Volden</i>	55
7. Digestion and metabolism in the gastrointestinal tract <i>H. Volden and M. Larsen</i>	59
8. Energy and metabolizable protein supply <i>H. Volden and N.I. Nielsen</i>	81
9. Animal requirements and recommendations <i>N.I. Nielsen and H. Volden</i>	85
10. Prediction of voluntary feed intake <i>H. Volden, N.I Nielsen, M. Åkerlind, M. Larsen, Ø. Havrevoll and A.J. Rygh</i>	113
11. Chewing index system for predicting physical structure of the diet <i>P. Nørgaard, E. Nadeau Å. Randby and H. Volden</i>	127
12. Prediction of milk yield, weight gain and utilisation of N, P and K <i>M. Åkerlind and H. Volden</i>	133
13. Standard feed value <i>M. Åkerlind and H. Volden</i>	137

14. System evaluation	141
<i>H. Volden, N.I. Nielsen, M. Åkerlind, A.J. Rygh and P. Nørgaard</i>	
15. The NorFor IT system, ration formulation and optimisation	167
<i>H. Volden, H.D. Rokkjær, A. Göran and M. Åkerlind</i>	
Keyword index	179
